Personal Guarantee(s)

Christopher & Danielle Neeley

22802 E Alyssa Rd, Queen Creek, AZ 85142

Proposed - Financing \$318,938 of new construction equipment; total cost of equipment equals \$350,000

Requested Terms - 72-month balloon, 120-month amortization

Bevel Commission - \$3,938 - 1.25% financed amount

Collateral - PMSI Equipment, LTC = 91.13% - 10% down payment

Purpose - Purchase \$350,000 of new rental construction equipment. The borrower is hiring EZ EquipmentZone to manage the equipment fleet. The assets will be placed within EquipmentShare's rental fleet management program, leveraging their proprietary telematics technology.

EZ EquipmentZone

EZ Equipment Zone, LLC was founded in 2016 with the purpose of creating a managed program for heavy rental equipment. EZ Equipment Zone has grown to be one of the largest known pools of heavy rental equipment in the United States, and as of October 2025, the program has over 10,600 pieces of equipment under management and over \$2 billion in assets. How did we do this? EZ Equipment Zone possesses a master contract with a national equipment rental company to rent out all of the equipment owned by the program members. EZ Equipment Zone assists every step of the way by helping individuals establish a new rental business, purchase new rental equipment, acquire financing if needed, and enabling each equipment owner to participate in the net rental proceeds of the entire program, ensuring them of rental proceeds even in months that their specific equipment may not have fully rented. EZ Equipment Zone originally started in 2016 with the 1st Gen program (now limited) which grew exponentially in a short amount of time and led us to create the all-new Advantage+ Equipment Rental Program. EZ Equipment Zone also now offers its clients the new EZ Growth program that provides participants a place to "park" money while they are considering their next equipment purchase. This plan also gives the ability to have another option to make a solid return without having to tie up cash for the long term. Since its inception, the EZ Growth plan has been a huge success for our clients. In addition, EZ Equipment Zone also offers a new program called "Solar" which allows participants to take advantage of solar tax credits to offset passive income and reduce federal tax liability.

Residual Value of a Blended Rental Construction Fleet

Lending on heavy construction equipment is a beneficial choice for lenders, promoting a diversified portfolio through mobile and highly utilized collateral. Furthermore, lenders can track and recover assets when needed with EquipmentShare’s T3 telematics technology. Heavy construction equipment boasts an operating lifespan of 20+ years when proactively and predictively maintained. These assets support high secondary market value through their lifecycle, especially when tracked using EquipmentShare’s T3 telematics technology.

Below is a chart illustrating the residual value of the blended fleet of equipment over the life of the loan.

¹ The Loan line represents the life of the loan under the current presented terms.
² Auction and Retail residual values derived from the Rouse Appraisals Data Source as of November 2025.

Loan to OEC of Blended Fleet							
Months	Loan	% of OEC	% of Loan	Auction	% of OEC	Retail	% of OEC

- Notes -
- 1. DTI is conservative with average income over the period spread along with estimates based on PFS balances; no potential income given for the proposed equipment loan.
 - 2. Per the borrowers, the large credit card debt was due to unforeseen circumstances when closing on their previous house and building their new house.

Underwriter Comments

Strengths

- **Capacity** - Proforma Table, DSCR 1.03.x
- **Collateral** - New construction equipment, LTC = 91.13%
- **Capital** - Net worth of \$1,351M, cash on hand \$74M
- **Conditions** - Continued macroeconomic demand for construction rental equipment
- **Character** - Consistent employment and earnings over the period spread

Mitigating Factors

- **Capacity** - Chris and Danielle can manage payments in the event of a monthly shortfall of equipment rental payments. Strong conservative global cash available for debt service, proposed DTI of 31.16%.
- **Collateral** - To be tracked, managed, and maintained utilizing T3 technology. Additionally, to be insured at three levels: Owner of Equipment, Equipment Rental Management, and Lessee
- **Conditions** - EZ Equipment Zone has demonstrated demand from other owners in the event guarantee needs to sell equipment. EQS utilization rates have been managed to be near 70% utilization rate
